

EBAJAN, IRVINE CLARK B.

JUNIOR FULL STACK WEB DEVELOPER

Davao City, Philippines | +63994601099 | [email](#) | [LinkedIn/IrvsEbajan](#) | [portfolio](#)

PROFESSIONAL SUMMARY

Junior Full Stack Web Developer with 2 years of hands-on experience building web applications through internship, freelance, and academic projects. Proficient in Laravel, PHP, Node.js, MySQL, PostgreSQL, Docker, and RESTful API development, with experience designing backend services, authentication systems, and database-driven applications. Passionate about writing clean, secure, and maintainable code while continuously strengthening fundamentals and contributing to engineering team.

CORE COMPETENCIES:

Backend Development, Full-Stack Web Development, RESTful API Design & Integration, Database Design & Management, Authentication & Authorization, Secure Software Development, Software Testing & Debugging, Version Control (Git & GitHub), Docker Containerization, System Integration, Performance Optimization, Problem Solving & Debugging, Agile Team Collaboration.

TOOLS & PLATFORMS:

Visual Studio Code, Git, GitHub, Docker, Postman, MySQL Workbench, pgAdmin, XAMPP, Laravel Herd, Laragon, Composer, npm, Node.js Runtime, Laravel, Filament, Render, Cloudflare Pages, Linux, Windows, Microsoft Office Suite.

PROFESSIONAL EXPERIENCE:

Software/Web Developer Intern

Valiant Allied Services, Inc. | December 2025 ~ April 2026

- Developed and maintained a full-stack Employee & Payroll Management System using Laravel 12 and Filament to streamline payroll processing and employee management workflows across multiple vessel-based branches. (Action verb) + what you did (more detail) + reason, outcome or quantified results.
- Automated payroll processing for 24+ employees across 3 branches, reducing manual payroll preparation time by up to 80% and improving operational efficiency. (Action verb) + what you did (more detail) + reason, outcome or quantified results.
- Built a configurable payroll calculation system supporting multiple compensation structures and Philippine statutory deductions including SSS, PhilHealth, Pag-IBIG, and TRAIN tax requirements.
- Created 80+ PHPUnit unit and feature tests covering payroll calculations, attendance processing, and deduction workflows to improve application reliability and reduce potential regressions.
- Implemented automated PDF payslip generation and Excel import/export functionality to simplify payroll reporting and employee data management.
- Configured a Docker-based development environment using Nginx and PHP-FPM to improve development consistency and application deployment workflow.

Laravel Full Stack Developer

Freelance (Montreal Q.C Canada) | June 2025 ~ December 2025

- Collaborated directly with a startup client to develop secure Laravel-based web solutions by translating business requirements into functional backend features. (Action verb) + what you did (more detail) + reason, outcome or quantified results.
- Developed a flight inquiry platform with Laravel validation and Google reCAPTCHA v3 integration to improve data integrity and protect customer submissions from automated abuse. (Action verb) + what you did (more detail) + reason, outcome or quantified results.
- Implemented AES-256 encryption for sensitive customer information and developed Laravel Artisan utilities to safely migrate existing records while maintaining data integrity Automated onboarding workflows, domain integrations, A2P 10DLC registration, and marketing campaigns, reducing implementation timelines and enhancing customer experience.
- Built RESTful APIs to support web and mobile application integration, applying automated unit and feature testing to improve application reliability.
- Configured Docker-based deployment environments using PostgreSQL and Render to ensure consistent application setup and easier maintenance.

EDUCATION:

- **Bachelor of Science in Information Technology (BSIT)**

Assumption College of Davao | April 2026

CERTIFICATION:

- Level 3 at TOPCIT Philippines – TOPCIT 2025 – (December 2025 - 2027)
- UXPH Mini 2025: Davao Conference –UXPH 2025 – (August 2025)
- UI/UX Design and GitHub Utilization Workshop in ACD (IT Festival 2024)
- Certified Microsoft Office Specialist in MS Word (May 2024)
- Network Security Essentials Workshop in ACD IT Festival 2024)
